

Across

- 6 The full DNA sequence of an organism (6)
- 8 A microscopic plant that produces red tide (14)
- 10 A chemical base sequence that creates DNA (4)
- 11 A universal protein that controls cell division, including in red tide-producing dinoflagellates (7,6)
- 12 An essential part of a living cell; also a nutrient found in meat (7)
- 14 A poison produced by plants and animals, including during red tide (5)

Down

- 1 A type of sequence, or code, for creating DNA (8,4)
- 2 A segment of DNA (4)
- 3 A microscopic marine plant (13)
- 4 Marine life significantly affected by red tide (9)
- 5 This marine phenomenon results in the ocean taking on a reddish hue (3,4)
- 7 Short for deoxyribonucleic acid (3)
- 9 A system formed by the interaction of a community of organisms with their physical environment (9)
- 13 A large body of water (5)
